

# Customer Transfer

*To remove the paperwork and admin involved in selling a Smartnav unit, we have designed one of two simple steps; either:*

- 1. Confirm you have sold the car or no longer require the service option by pressing the button and advising the PA. Or*
- 2. Ask the new customer to press the button and advise the PA they have purchased the car and we will give the service **FREE** for one month.*

***NB:** It may take up to 1 working day to transfer details. New customers will be given routes during this period.*
