

Customer Transfer

To remove the admin and paperwork involved in selling a Smartnav unit, we have designed one of two simple steps. Either:

1. Confirm you have sold the car or no longer require the service option by pressing the button and advising the PA.

OR

2. Ask the new customer to press the button and advise the PA they have purchased the car and we will give the **FREE** service for one month

VERY IMPORTANT

It may take up to 1 working day to transfer details. New Customers will be given routes during this period
