

Your journey should be as simple as **A**

### Satellite navigation with a human voice

Smartnav is your personal journey management system. It guides you intelligently, avoiding traffic jams, hold-ups and all kinds of other frustrations.

- Simply press the Smartnav button to connect directly to your personal assistant.
- Less than a minute later your Smartnav system will be loaded with your journey, ready to provide clear directions at every turn.
- Personal assistance is always just a touch away.

### Much more than satellite navigation

Use Smartnav every time you make a journey to ensure you arrive calm and relaxed. Just touch and go – it couldn't be simpler.

- Smartnav can alert you to zones monitored by safety cameras, ensuring you drive safely within the legal limits.
- If your car gets stolen, we can help to track and locate it.
- Extend the Smartnav navigation service to include European Navigation when driving on mainland Western Europe\*.
- Helps you avoid toll roads where possible and warns you as you approach the Congestion Charging Zone in central London.

**NEW SERVICES NOW AVAILABLE**

### Be prepared for even the most unexpected event

Smartnav is the very latest in satellite navigation. Our experts use real-time traffic and road incident data to keep you moving towards your destination.

- Just tell us the address, the postcode, the business name or the place of interest and we'll get you there.
- You'll never have to order mapping updates, add new speed camera locations or worry about your system going out of date.

### On-call 365 days a year 24 hours a day

Unlike other systems, there's no complicated destination entry process. We're available any time of the day or night, any time of the year.

- The best available route is always provided and the system offers an alternative if unexpected hold-ups happen.
- We're always there when you need help, even if you break down. We can direct road side assistance straight to wherever you are.

## Smartnav personal journey management – just touch and go

### Benefits – at a glance

#### Simplicity

- Easy to use – just touch and go.
- Can automatically calculate a new route to your destination, so no need to worry about going off-route.

#### Intelligence

- Uses live traffic information to avoid the jams and takes the hassle and worry out of driving.
- Locates hard to find or unusual destinations and guides you every step of the way.
- Quarterly map updates included directly to your unit.

#### Peace of mind

- Personal assistance on hand 24/7, providing around the clock support.
- Optional European Navigation across the majority of mainland Western Europe.

#### Safety

- Optional speed camera warnings encouraging safer driving and helping to protect your licence.
- Provides support in an emergency or breakdown.

#### Reassurance

- Optional stolen vehicle tracking to locate your car if stolen.
- Provides easy turn by turn instructions all the way, so no need to worry about unfamiliar surroundings.
- Warnings when approaching, driving inside or leaving the Congestion Charging Zone in central London.

## Smartnav Gets you from A - B...

## ...effortlessly

### Why not add these extra options\*\*

#### Touchscreen

A discreet and stylish LCD screen designed for drivers who prefer the additional comfort of visual guidance.

Distance to your next manoeuvre and destination, and estimated time of arrival will be displayed.

Smartnav services and options are also at your fingertips.

- Enter destination by postcode, favourite or personal assistant.
- Access safety and security options.
- Receive incoming telephone calls.

#### Safe speed

- There are over 6,000 fixed safety cameras installed on the UK roads today – up 25% in the last year.
- 12.7 million people receive speeding tickets each year.
- On average, there is 1 speed camera for every 30 miles of road.

Smartnav will alert you to zones monitored by fixed safety cameras, ensuring you drive safely and within the legal limits.

- 3 beeps as you approach the monitored zone.
- 5 beeps immediately before the zone.
- Continuous beeps if you go above the speed limit.

#### Stolen Vehicle Tracking

Over 300,000\* vehicles are stolen every year. Over half of those stolen are never recovered or returned.

If your vehicle is stolen, we can help to locate it by using GPS technology and work with the Police to recover it. The service is operational 24 hours a day, 365 days a year.

This option has a Thatcham Q class listing, so many leading insurance companies may be able to offer an insurance discount.

\* The British Car Crime Survey : 2004.

#### European Navigation

Take the stress out of your holidays and business trips with Smartnav's European Navigation Option.

Covering all major countries within Western Europe\*, this service will get you from Antwerp to Berlin the smart way.

- As easy to use as ever, simply press your button to call the PA, provide the full address and off you go!
- Touchscreen users can also use the 'Favourites' facility to request pre-set Favourite destinations
- Smartnav will even give you the option to use or avoid European toll roads.
- Buy Smartnav European Navigation Option for a single month to cover your journey abroad or an annual subscription is available for regular European travellers

\* European Navigation operates in: Austria, Belgium, Republic of Ireland, France, Germany, Italy, Luxembourg, Netherlands, Portugal, Spain, Switzerland.
